# 1 Introduction

## 1.1 Structure of the cultural heritage appendices

1.1.1 The cultural heritage appendices for the Drayton Bassett, Hints and Weeford community forum area (CFA) comprise:

- baseline reports (Appendix CH-001-021);
- a gazetteer of heritage assets (this appendix);
- impact assessment (Appendix CH-003-021); and
- survey reports (Appendix CH-004-021).

1.1.2 Maps referred to throughout the cultural heritage appendices are contained in the Volume 5 cultural heritage map book.

## 1.2 Scope and coverage

1.2.1 This appendix provides descriptive information for the Drayton Bassett, Hints and Weeford CFA019 relating to identified designated and non-designated heritage assets that lie within the following study areas:

- designated assets: All designated assets within 2km of the centre line of the Proposed Scheme are listed. Detailed descriptions of assets and their settings are provided only for those designated assets where field study has determined a potential for impacts on setting or significance to arise; and
- non-designated assets: Detailed descriptions of all assets and their settings are provided for those assets located within the land required to construct the Proposed Scheme and within the 500m buffer zone.

1.2.2 Where appropriate, assets have been grouped together to assist in an understanding either of their context e.g. collecting together archaeological intervention s that relate to a common location or of their setting and significance e.g. collecting together historic buildings either within specific conservation areas or within the same streetscape context.

# 2 Information supplied

2.1.1 For each asset or group of assets the following information has been provided:

- unique ID: e.g. DHW003;
- map Ref: map number in Volume 5 on which the asset can be located;
- asset type: simple classification of asset type using following classes:
  - ancient woodland;
  - archaeology;
  - built heritage;
  - historic hedgerow;

- historic landscape; and
- settlement.

- name: either name used in designation record(s) or other identifiable name;
- description: short description of the asset and, where relevant, its setting;
- period: primary period relating to asset using period classifications from Appendix CH-001-021;
- designation: if applicable key designation or designations for some groups;
- grade: where applicable, grade of any designated assets;
- significance / value: Score based on Scope and Methodology Report classifications i.e. high, moderate, low, not significant; an 'unknown' category has been introduced in respect of Light Detection and Ranging (LiDAR) and aerial photographic investigation (API) features, in instances where there is presently insufficient evidence to determine significance;
- national heritage list (NHL) reference for designated assets; and
- historic environment record (HER) reference, where relevant.

2.1.2 Unique IDs were assigned to assets on a block basis during the development of the baseline, the numbering sequence is thereof not continuous.

DHWo42	CH-01-61 and CH-02-35	Built heritage	Ingley Hill farmhouse and barn	Farmhouse, part of the Swinfen Hall estate. Late 18 <sup>th</sup> century with minor 20 <sup>th</sup> century alterations. The house lies to the south of its associated farm complex with gardens to the east and south enclosed with hedges and tree cover. Views towards the Proposed Scheme are restricted. The barn is late 18 <sup>th</sup> century with early 19 <sup>th</sup> century additions, similar to its counterpart at Horsley Brook Farm. Views to the east and north are screened by other buildings of the complex and tree cover surrounding the gardens of Ingley Hill farmhouse. There are also four non-designated historic buildings on the site, two predating 1884, one predating 1902 and one predating 1922. Apart from a visual connection to Horsley Brook Farm, the setting of Ingley Hill is isolated, with woodland views and 18 <sup>th</sup> century open fields to the south and east (DHW400) contributing to its unspoiled historic character. As part of the Swinfen Estate, the farm would have historically been approached from the west side.	Post medieval	listed building	Two Grade II buildings	Moderate	1294790, 1038836	13694, 13693
DHWo44	CH-01-61 and CH-02-35	Built heritage	Packington Hall Farm – malthouse	Malthouse, circa 1840. Red brick with a plain tile roof. The building is situated on the western side of the associated complex of Packington Hall Farm. The farm is set back from the road, surrounded to the east, south and west by agricultural land with areas of woodland. Views to the west towards the Proposed Scheme are fully screened by existing development and tree cover.	Post medieval	Listed building	Grade II	Moderate	1038806	n/a
DHWo45	CH-01-61 and CH-02-35	Built heritage	Horsley Brook Farm	Farmhouse, granary and cartshed, hackney stable and smithy, barn. Part of the Swinfen Hall estate. Complex also contains one non-designated historic building predating 1924. Farmhouse is mid 18 <sup>th</sup> century with mid 19 <sup>th</sup> century alterations – it is detached from the farm buildings with a garden to the south and paddock to the southeast. The principal facade of the building faces east with views partially screened by tree cover. Like Ingley Hill Farm, the setting of Horsley Brook is one of isolation, with key views towards Ingley Hill and east across 18 <sup>th</sup> century farmland (DHW400) contributing to its historic character. As part of the Swinfen Estate, the farm would have historically been approached from the west side.	Post medieval	Listed building	Four Grade II buildings	Moderate	1188312, 1188309, 1038834, 1038835	13692, 13690, 13689, 13691
DHWo46	CH-01-061	Historic landscape	Packington Hall Park	Landscape park around Packington Hall, in the vicinity of the deserted settlement of Packington 410-1065. Few features of the park survive (Icehouse Covert is still evident) with agricultural fields taking the place of the former landscaped grounds of the Hall. No park boundaries are evident.	Post medieval	None	None	Moderate	None	6179, 2526
DHWo49	CH-02-35	Built heritage	Packington Hall	Country house, now offices. Mid 18 <sup>th</sup> century, reputedly by Benjamin Wyatt; rendered in the 19 <sup>th</sup> century with other alterations. The house is situated north of Tamworth Road within agricultural land. The principal facade of the building faces west, with views from it largely screened by tree cover.	Post medieval	Listed building	Grade II	Moderate	1038837	n/a
DHWo53	CH-02-35	Built heritage	Weeford Lodge	1830s lodge, situated west of the A38 with limited views over agricultural land towards Weeford and Church Wood. These views are partially screened by young trees planted along the edge of the A38 which dominates the Lodge's setting.	Post medieval	Listed building	Grade II	Moderate	1374292	n/a
DHWo57	CH-01-60	Built heritage	Bucks Head Farm	18 <sup>th</sup> century farmhouse (with several phases of alteration, not listed) with 18 <sup>th</sup> century L-shaped range of outbuildings including barn and former smithy (listed). The farm has developed in several phases between the 18 <sup>th</sup> and 20 <sup>th</sup> century and there are an additional 4 historic buildings within the complex predating 1888 and 3 predating 1902. The buildings together form a coherent group around a multi-courtyard plan. The farm is situated on a west facing slope between Watling Street and the A5, with limited vegetation to both north and south. It is clearly visible from the A5, but remains connected to historic farmland to east and west. Its historic access would have been from Watling Street, where the farm access is today.	Post medieval	Listed building	Grade II	Moderate	1263819	13985
DHWo60	CH-02-35	Built heritage	Blackbrook Farmhouse	Farmhouse built mid 18 <sup>th</sup> century. James Wyatt, the architect, was born here in 1747. Blackbrook Farm is situated on the Weeford side of the A38, with the farmhouse facing west towards it. Views to the northeast do not look beyond Weeford and are partially screened by adjacent woodland.	Post medieval	Listed building	Grade II	Moderate	1188402	n/a

DHW063	CH-02-35	Built heritage	Milepost at NGR1701 0297	Cast iron milepost of mid to late 19 <sup>th</sup> century date. Triangular with chamfered top. Top face: "FAZELEY". Left hand face: "FAZELEY 2/TAMWORTH 2¼/ ATHERSTONE 9". Right hand face: "LICHFIELD 6".	Post medieval	Listed building	Grade II	Moderate	1294733	n/a
DHW069	CH-01-59 and CH-02-35	Built heritage	Hill Farmhouse	Farmhouse, late 18 <sup>th</sup> century with 19 <sup>th</sup> century alterations. The farmhouse is situated to the north of its associated farm buildings, overlooking adjacent gardens with open fields beyond. The hilltop setting of the farmhouse is a key aspect of its character, with long views to the south over open fields. Views to the west are obscured by more recent development and to the north by more modern houses in the lane leading to the farm.	Post medieval	Listed building	Grade II	Moderate	1188217	n/a
DHW071	CH-02-35	Built heritage	Church of St. Peter, Drayton Bassett	Parish church, probably 15 <sup>th</sup> century with rebuilding of 1793 and circa 1855. The Church of St Peter is situated in the centre of Drayton Bassett with a substantial estate of modern housing to its west. The tower of the church is visible at points along the roads entering the village.	Post medieval	Listed building	Grade II*	High	1374280	n/a
DHW072	CH-02-35	Built heritage	Drayton Brick Bridge	Canal bridge, built around 1787. Red brick with stone coping. The Minworth to Fazeley branch of the Birmingham and Fazeley Canal, which Drayton Brick Bridge serves, was opened in 1789; the contractor was John Pinkerton. The bridge lies in an essentially rural setting with potential views west across open agricultural land towards the Proposed Scheme partially screened by hedges. DHW104	CH-01-59	Archaeology	Relict field system north of Gallows Brook	Ridge and furrow earthworks visible in aerial photographs as referenced on the Staffordshire HER.	Medieval	None	None	Low	None	n/a
DHW105	CH-01-59	Historic landscape	Drayton deer park	Park, dating to at least the early 13 <sup>th</sup> century, its extent as shown on mapping of the 16 <sup>th</sup> to 17 <sup>th</sup> century. Hedgerows still define the park boundary, see DHW150.	Medieval	None	None	Low	None	4281
DHW106	CH-01-59	Historic landscape	Shirral Park deer park	Park, mentioned in records in the late 14 <sup>th</sup> , 15 <sup>th</sup> and 16 <sup>th</sup> centuries. The boundary of the park is traced from tithe map field names and a description of a now lost 16 <sup>th</sup> century map. Shirral Park was disparked in 1756, and no trace of an earthwork boundary has been identified. Hedgerows still define the park boundary; see DHW149, DHW150, DHW151.	Medieval	None	None	Low	None	4283
DHW107	CH-01-59	Archaeology	Earthworks around Shirral Coppice	Earthworks of a dam along the western edge of Loddy Wood in the former Shirral Park. A rectangular brick structure survives to the NE corner of the dam. A curving linear feature, evident as a cropmark, probably representing the former south-eastern extent of Shirral Coppice. An earthwork bank and ditch aligned east to west through Shirral Coppice, which appears to be the continuation of a field boundary.	Post medieval	None	None	Low	None	40025, 40038, 40039
DHW110	CH-01-59 and CH-02-35	Ancient woodland	Shirral Coppice Ancient Woodland	Ancient woodland area of ancient woodland circa 2ha in size connected to and west of more recent woodland on Crane Brook Hill. Once part of a more extensive area of woodland also containing Tricklely Coppice and Shirral Gorse.	Post medieval	Ancient woodland	Ancient woodland	High	None	5765
DHW111	CH-01-59	Archaeology	Field system at Hill Farm	Extensive undated cropmarks forming adjoining enclosures with a possible ditched roadway, evident as cropmarks to the south of Hill Farm on aerial photos. Also possible lynchets to the north and linear earthworks visible on LiDAR. Features near DHW111 identified in a geophysical survey (Wessex Archaeology 23 May 2013) could relate to this site. DHW114	CH-01-59	Archaeology	Bangley Park deer park	Park, mentioned in records of the late 15 <sup>th</sup> century, and mapped from documentary sources and archaeological evidence. Disparked in the mid 18 <sup>th</sup> century, the land is now in agricultural use. Hedgerows still define some of the park boundary, see DHW151 and 152.	Medieval	None	None	Not significant	None	4282
DHW116	CH-01-59 and CH-01-60	Archaeology	Field system at Brock Hurst	Field system seen in aerial photographs south of Hints, adjacent to Brock Hurst ancient woodland.	Medieval?	None	None	Low	None	n/a
DHW117	CH-01-60 and CH-02-35	Ancient woodland	Brock Hurst Ancient Woodland	Area of ancient woodland circa 4ha just beyond the boundary of the Canwell Park estate. The wood is surrounded by agricultural fields, and may have a historic connection to Brock Hurst Farm.	Post medieval	Ancient woodland	Ancient woodland	High	None	5783
DHW118	CH-01-60	Archaeology	Relict field system west of Hints	Ridge and furrow visible in aerial photographs.	Medieval	None	None	Low	None	n/a
DHW119	CH-01-60 and CH-02-35	Ancient woodland	Roundhill Wood Ancient Woodland	Area of ancient woodland on a hill rising above the Bourne Brook just south of Hints. Circa 4ha in the area, the wood is surrounded by agricultural fields and is contiguous with a possible prehistoric enclosure site DHW166. Part of a network of woodland west of Hints including Rough Leasow, Milditch Wood and the Rookery.	Post medieval	Ancient woodland	Ancient woodland	High	None	5784
DHW120	CH-01-60	Archaeology	Site of Greasley Hall	Site of Greasley Hall, Hints, believed to have dated to the late medieval period and demolished between the late 18 <sup>th</sup> and early 19 <sup>th</sup> century. No above ground remains survive.	Medieval	None	None	Low	None	50763
DHW121	CH-01-60	Archaeology	Site of forge	Site of a water-powered hammer mill and forge with an associated pond that dated to at least the early 17 <sup>th</sup> century. Although no longer extant, vestigial remains in the form of brickwork flooring were still visible in 2005 according to the HER.	Post medieval	None	None	Low	None	1125
DHW122	CH-01-59	Archaeology	Historic brook	Site of a former watercourse visible on hyperspectral and LiDAR plots. High archaeological interest for prehistoric and later features known on the Black Brook and brooks leading to Tent and Tame valleys.	Unknown	None	None	Low	None	n/a
DHW123	CH-01-60 and CH-02-35	Ancient woodland	Rookery Ancient Woodland	Area of ancient woodland, circa 7ha, directly west of Hints on hills rising up above the Bourne Brook Valley. Part of a network of woodland west of Hints including Rough Leasow, Milditch Wood and Roundhill Wood.	Post medieval	Ancient woodland	Ancient woodland	High	None	5785
DHW124	CH-01-60	Archaeology	Crow's Castle Mound and Gorsey Hill Mound	Crow's Castle Mound, planted with trees and bounded by an agriculturally formed lynchet – reputed to have been a barrow but more probably natural. Gorsey Hill Mound also a mound of unknown data and function. Probably a natural mound of Bunter pebbles.	Unknown	None	None	Low	None	1109, 1108
DHW125	CH-01-60	Archaeology	Roman field system	Linear features, potential field boundaries associated with nearby Roman remains adjacent to new A5 (CUCAP ADR19-20), 1961	Roman	None	None	Moderate	None	n/a
DHW126	CH-01-60	Archaeology	Medieval forge and mill with ponds	Site of a forge in the post-medieval period, also the site of a watermill dating to at least the early 18 <sup>th</sup> century that was demolished around the mid 19 <sup>th</sup> century. A series of ponds, associated earthworks and a leat are also possibly associated with the mill. An ornamental fishpond, probably created by enlarging an earlier mill pond. Visible on LiDAR (see CH-004-021).	Post medieval	None	None	Low	None	1699, 1122, 4976

DHW360	CH-01-60 and CH-02-35	Settlement	Hints village	Village (conservation area) taking in the historic core of the village of Hints, including Hints Manor, St Bartholomew’s Church, the grounds of Hints Old Hall and a former mill pond to the north-west. The village of Hints is positioned on a south facing slope, between Black Brook and Watling Street, overlooking hills, fields and woodland. There are a number of important listed buildings within the village, largely of 19 <sup>th</sup> century date, although elements of earlier post-medieval buildings remain. Due to the narrow roads through the village, and the height of hedgerows and trees adjacent to them, there are only a few views into and out of the conservation area. The most significant view is from Watling Street, looking south down School Lane where the irregular roofline of the village interspersed with trees is set against the backdrop of woodland and fields along Gorsey Hill. Other views from Brockhurst Lane take in the wooded margin along the southern edge of the conservation area, while views looking southeast along School Lane within the village look out towards Roundhill Wood. The main significance of the conservation area is considered to be its sense of remoteness and tranquillity, complemented by its situation on the edge of open assarted enclosures to the south and west. Hints was recorded as one of 15 settlements under the Manor of Lichfield in the Domesday Book of 1086. Together the settlements were recorded as having 82 villagers and smallholders. Encompasses Hints Manor (Grade II) and the Church of St. Bartholomew (Grade II). The Manor is situated above School Lane with views out over Hints to the south and southwest to open fields and dispersed areas of woodland. The parish church was built in 1882-3 by John Oldrid Scott for Mr Chadwick, a cotton merchant. The church is situated on raised land in the centre of Hints. Principally viewed from the east, the rising topography screens views beyond it from Church Lane. Views west from within the site are partially obscured by tree cover, although the woods along the Hints Hills are visible. A cross and two memorials (also Grade II) lie in the churchyard. There are also a number of 19 <sup>th</sup> century buildings of none in School Lane: School House, Rose Cottage, Hints Old Hall, Chadwick House, The Old Coach House, Lambourne House, The Villa, Woodview, Hints Hall and Stables. Limited views beyond their immediate setting due to the height of adjacent hedgerows but some vistas towards the Bourne Brook valley between sparse tree cover and towards Roundhill Wood over adjacent paddocks and roofs of the houses in the centre of Hints. DHW400	CH-01-061	Historic landscape	Parliamentary Enclosure at Botany Bay	A coherent and legible example of a relatively rare landscape type for the county. The landscape type is planned enclosure, and the area is a good example of late enclosure by Parliamentary Act. The Act to enclose this part of Staffordshire was passed in 1879, and is probably related to the abolishment of commoners' rights on Whittington Heath by the War Department in 1877. The field patterns represent a classic Parliamentary-type enclosure, with large fields divided by ruler-straight lines at right angles. The settlement called “Botany Bay” reflects the tradition of naming fields located far from settlements after exotic and far-away locations and suggests the naming of the fields occurred after Cook’s discovery and naming of Botany Bay in Australia in the late 18 <sup>th</sup> century.
